

## OVERVIEW

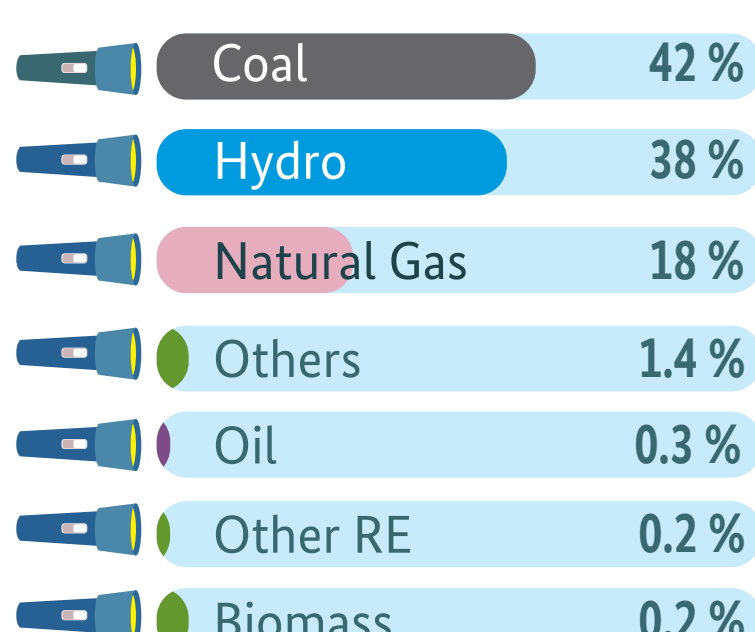

### 2018 Installed Capacity

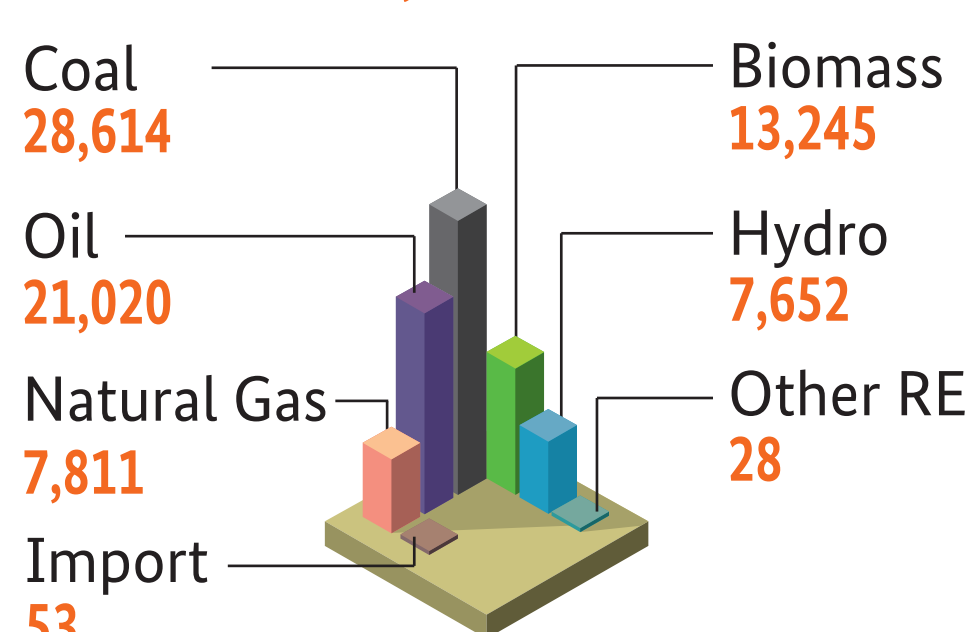

### 2018 Power Generation

220,309 Gwh

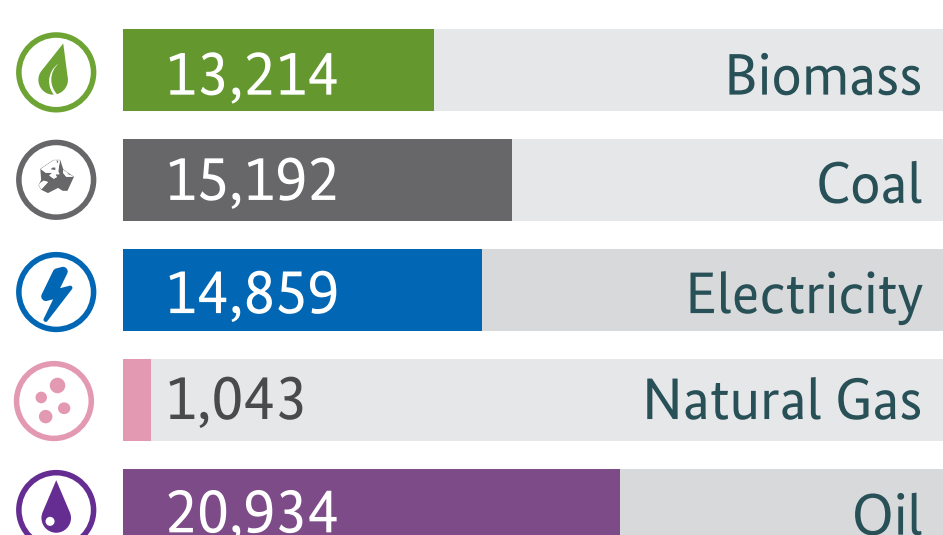

### 2017 Energy Supply

78,422 Ktoe

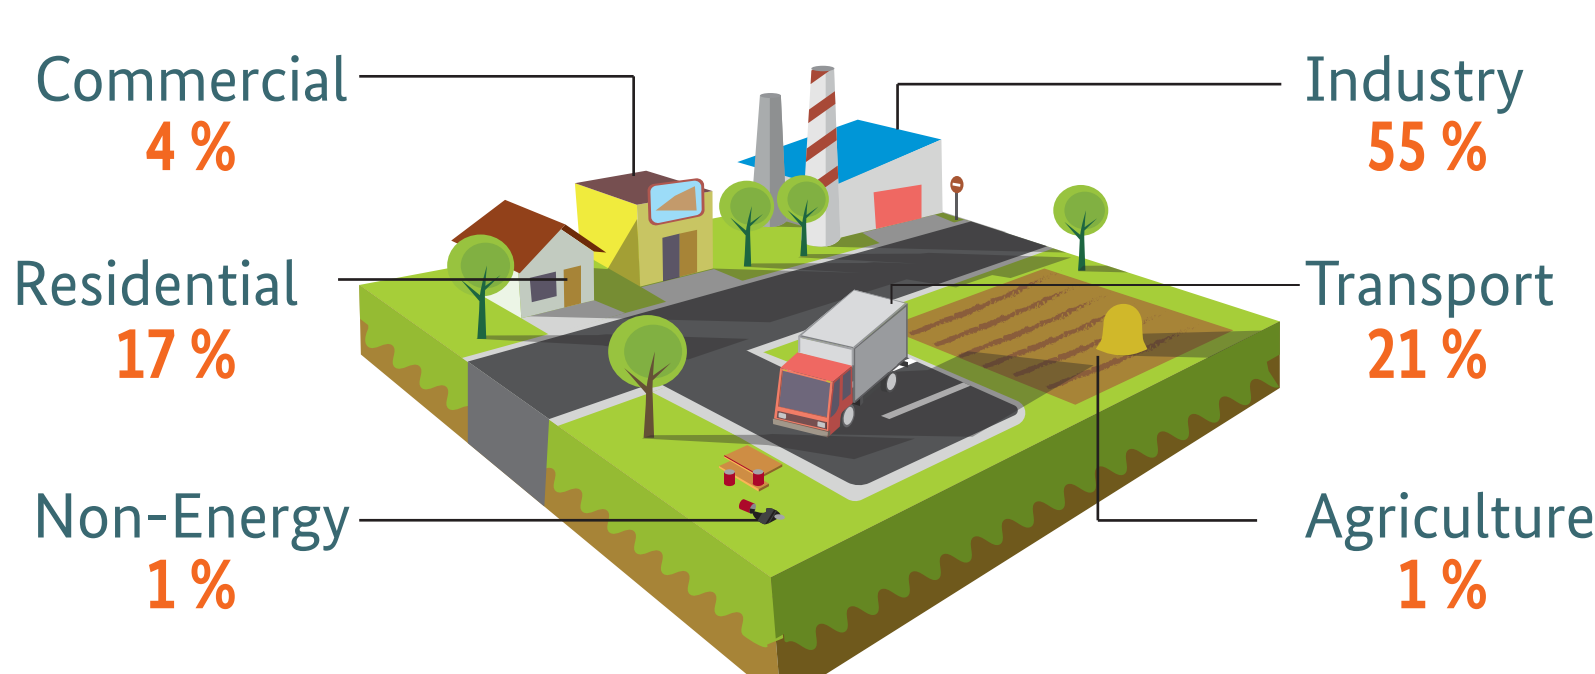

### 2018 Final Energy Consumption by Fuel (Ktoe)

Ktoe = Kilotonne of Oil Equivalent

### 2018 Fuel Consumption by Sector

65,243 Ktoe

## NATIONAL POLICY

### Socio-economic development plan

Resolution No. 98/2015/QH13, The energy consumption rate per GDP unit will decrease by 1.5% from 2015

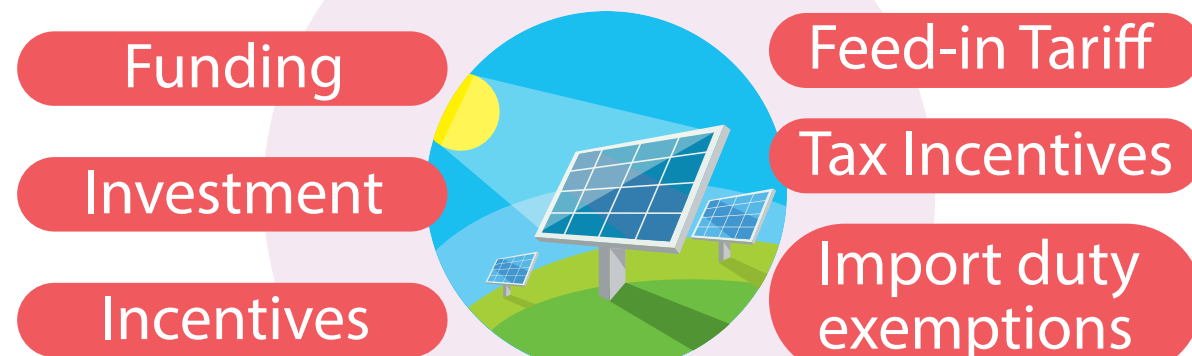

### Approval of the Revised National Power Development Master Plan

Decision No. 428/QD-TTg, The target is to ensure that most of rural households will have access to and utilize electricity by 2020

2017

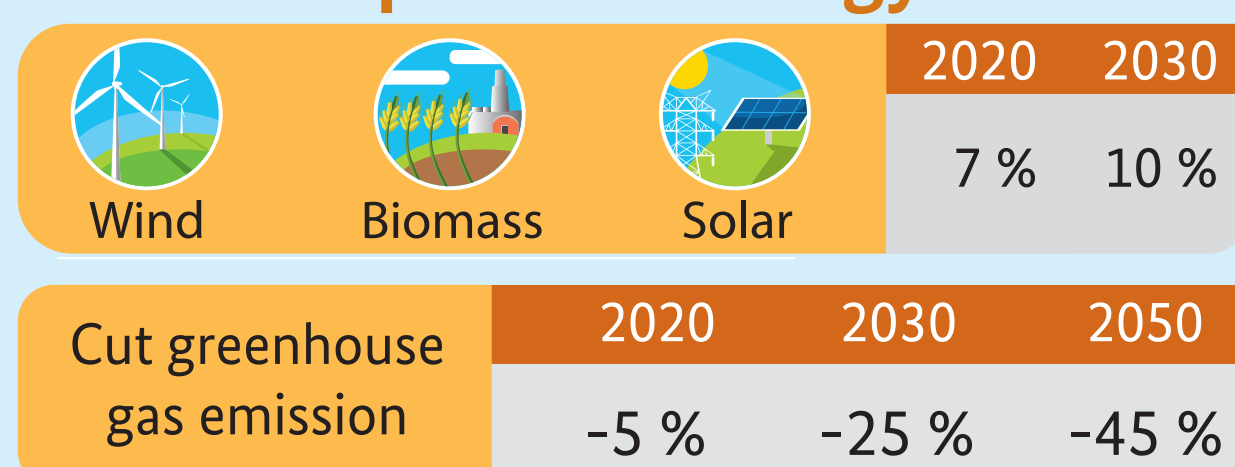

### Prime Minister Decision for Solar Power Project Development

Decision No.11/2017/QĐ-TTg, Encouragement of the development of solar power projects

2015

### RE Development Strategy

2012

### Labeling for energy used facilities and equipment

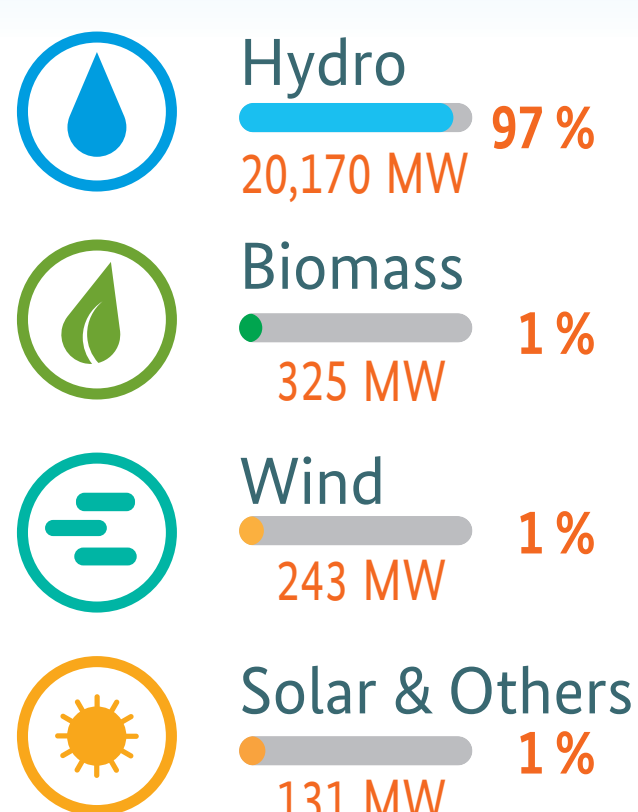

Circular No. 07/2012/TT-BCT, Regulating procedures for energy labeling for energy-using equipment

\*as of 2019

## ACTIVITIES

### RENEWABLE ENERGY

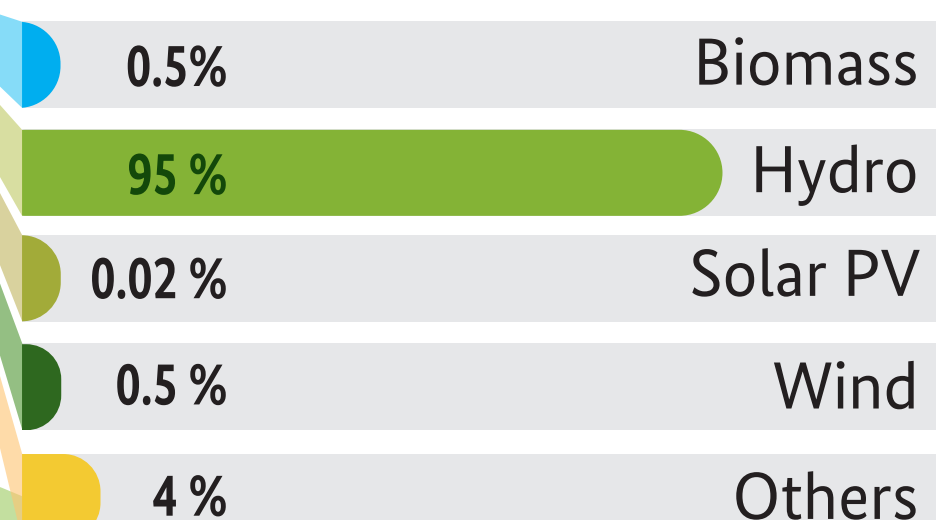

#### 2018 RE Installed Capacity

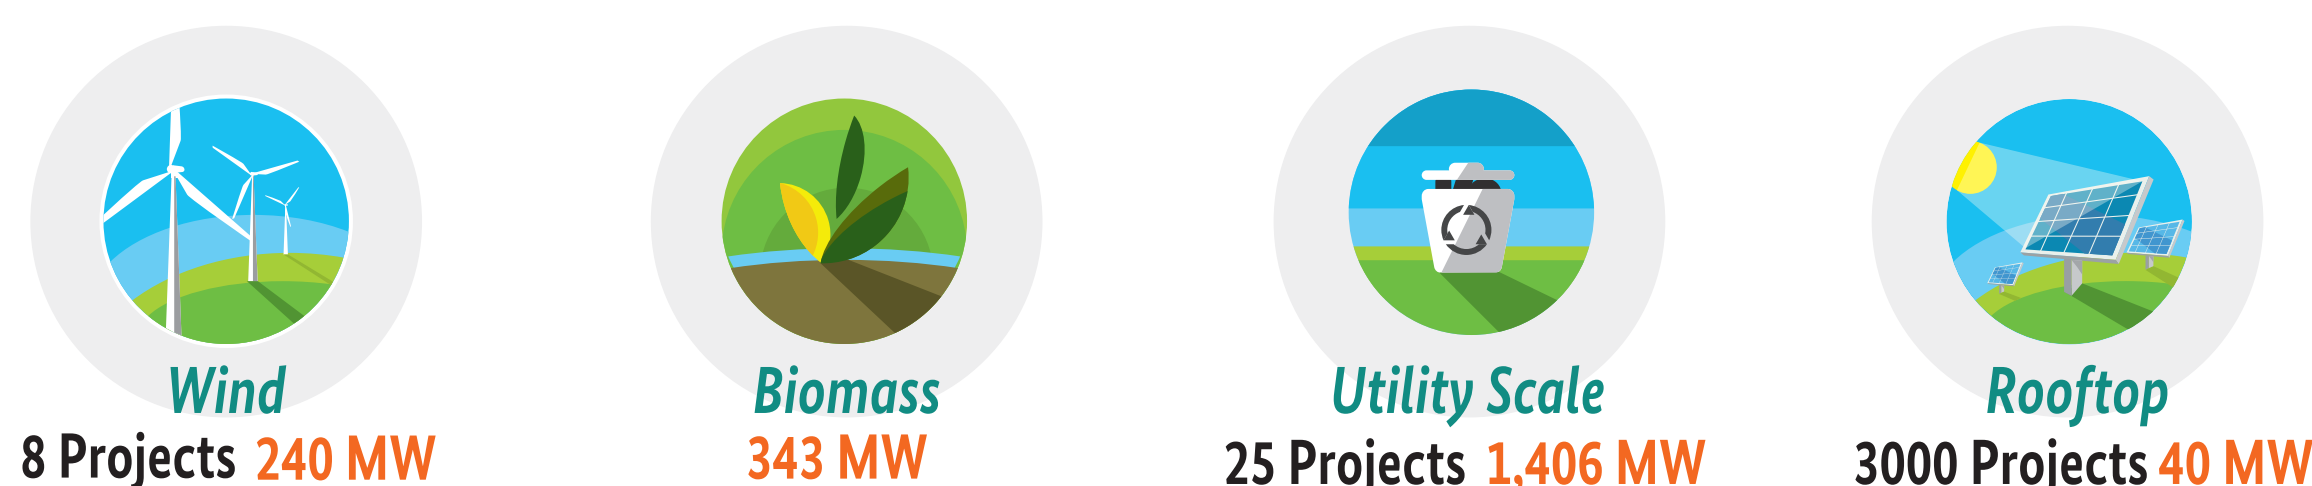

20,869 MW

#### 2018 RE Power Generation

87,203 GWh

#### RE Development Status

### ENERGY EFFICIENCY
